MATRICULATION.

Candidates for Matriculation must be able to pass an examination in the following subjects, viz.:—

| Geography, [Ancient and Modern]Hodgins and Pütz. |
|---|
| Arithmetic |
| English Grammar and Composition Bullion & Quackenbos. |
| Scripture History |
| Outlines of English History. |
| Algebra |
| Latin Grammar |
| Latin Reader |
| Cornelius Nepos |
| Sallust, Jugurthine War |
| Arnold's First Book in Latin |
| Greek Grammar and Greek ReaderBullion. |

After Matriculation the Course of Study embraces four years, as prescribed below, on the satisfactory completion of which, students are admitted to the degree of Bachelor of Arts.

Attendance on Lectures, during the entire four years, is requisite to graduation.

Any student, not intending to graduate, may pursue a special or elective course, selecting such studies as his circumstances may require.

For the accommodation of such students, special classes are formed in Natural Philosophy, Logic, Rhetoric, Metaphysics, and other subjects.

COURSE OF STUDY.

FRESHMAN YEAR.

Virgil Engid Bh I II III VI

| Virgil Æneid, Bb. 1., 11., 111., Vi |
|--|
| Livy, B. ILincoln. |
| Xenophon, Anabasis B. I. and III |
| Herodotus B. IJohnson. |
| Scripture HistoryOld Testament. |
| Geometry, nine booksLegendre. |
| FrenchFasquelle's Grammar & Reader, & Telemague. |
| Greek and Roman Antiquities |
| Latin Prose Composition |
| Greek Prose Composition |
| Chemistry |
| Electricity, Magnetism, & Electro-Chemistry. Lectures & Lardner. |
| Exercises in Elocution and English Composition. |
| Greek LexiconLiddell & Scott. |
| Latin Lexicon |
| |
| SOPHOMORE YEAR. |
| Horace, Odes Bb. I. and II., also Satires and Epistles Anthon. |
| Homer, Iliad, 4 books |
| Xenophon, Memorabilia Bb. I. and IV |
| Latin Prose Composition |
| Greek Prose Composition |
| Loomis' Mathematics, including Trigonometry [plane and spher- |

Lectures in Natural History.

Horace, Ars Poetica

Cicero de Oratore.

Exercises in Elecution and Composition.

Students of the Sophomore year, and last term of the Freshman year are allowed to take French as an extra study, provided their general standing be sufficiently high.

JUNIOR YEAR.

| Tacitus' Germania and Agricola |
|--|
| Cicero de Officiis |
| Thucydides B. I |
| Greek Testament |
| Natural Philosophy, $\left\{ egin{array}{ll} { m Mechanics} & \dots & \dots & Peck. \\ { m Acoustics} & { m and Optics} & \dots & Bartlett. \end{array} \right.$ |
| Logic |
| Mental Philosophy |
| Active and Moral Powers |
| German |
| Exercises in Elocution and Composition. |

SENIOR YEAR.

| Juvenal Satires III., X., XIII. and XIV. |
|--|
| Demosthenes de Corona |
| Aristotle's Ethics. |
| Differential and Integral CalculusLoomis |
| Astronomy |
| Evidences of Christianity |
| Hebrew. |
| |

Students of the Junior and Senior years may take German as an additional study, provided their general standing be sufficiently high.

TERMS AND VACATIONS.

The Collegiate year begins on the *last Thursday* in August, and ends on the *Wednesday* intervening between the 10th and 18th of May.

This period is divided into two Terms, between which there is a Recess at Christmas of one week.

Convocation is held on the last day of the Collegiate year, and is followed by the Summer Vacation.

Candidates for admission may be examined either on the day after Convocation, or on the day before the opening in August.

EXPENSES.

Board in College Refectory, including furnished room and fuel, \$2 a week; washing and lights extra.

The rooms are provided with stoves, beds, bedsteads, chairs, and tables; other necessary articles the students provide for themselves.

Board may be had also in private families at prices varying from \$2 to \$2 50 a week.

Tuition, \$12 a term, or \$24 for the year. The charge is the same whatever studies are pursued.

Payment for tuition is required in advance for each term; for board in advance for each half term.

The charge for *incidentals* is \$4 per annum, payable on admission.

Any student wishing to attend the College on a Scholarship must bring an order from the owner of the Scholarship.

No Scholarship is available unless paid up in full.

The total expense for board, instruction, and incidentals, is about \$100 a year.

PRIZES.

The sum of \$800 was generously given to the College by His Royal Highness the Prince of Wales, on the occasion of his recent visit to this Province, with a view to the establishment of Prizes. This money has been duly invested by the authorities of the College, and the interest will be annually expended in the bestowment of a Gold and a Silver Medal, to be styled the "Prince's Medals."

The Prince's Gold Medal will be awarded to that student of the graduating class who may have sustained the highest standing in all the prescribed subjects of the curriculum, during the four years of study.

The Prince's Silver Medal will be awarded in the same way to the second best student of the graduating class.

In addition to the above there are three prizes established by John George Hodgins, Esq., LL.B., Deputy Superintendent of Education, who, several years since, donated the handsome sum of \$635 for their permanent endowment.

The first of these is styled the *Ryerson* prize, the second the *Webster* prize, and the third the *Hodgins* prize. The *Ryerson* prize will be annually awarded to that member of the Freshman class who may evince the best knowledge of Scripture History; the *Webster* and *Hodgins* prizes are open for competition to the Junior and Senior classes, and will be awarded to the respective authors of the first and second best English essays on such subjects as may be assigned by the Senate.

This degree is conferred in course on all Bachelors in Arts of three years' standing, whose mental improvement and moral character have appeared satisfactory to the authorities of the University. Application must be made by letter to the President, one month prior to Convocation. The fee is the same as for the degree of B. A.

DISCIPLINE.

Students connected with the college will be expected to conduct themselves with propriety, and to observe all regulations imposed by the President and Faculty.

A record is kept of each Student's deportment, and will be furnished to parents in special cases.

Students, whose conduct or progress in study is unsatisfactory, will not be allowed to remain in the Institution.

RELIGIOUS SERVICES.

All students are required to attend Divine Service on the Sabbath, at such Churches as their parents or guardians may prefer.

They are also required to attend daily prayers, with the reading of the Holy Scriptures, in the College Chapel.

An effort is thus made to secure a healthful moral and religious influence, but the inculcation of sectarian views will be avoided.

Faculty of Medicine.

This Faculty will be conducted in Toronto, as heretofore, and those who complete the prescribed curriculum, and pass a satisfactory examination, will receive the degree of Doctor of Medicine from the Senate of the University.

The WINTER Session always begins on the 1st of October in each year, and ends on the 30th March following.

The SUMMER Session immediately follows and continues till the 30th of September following.

The usual vacations at Christmas and New Years are allowed.

The fees for two Winter Sessions, \$186; for one Session, \$100; Summer Session, \$35.

Additional information may be obtained from the Hon-John Rolph, M.D., LL.D., Dean of the Medical Faculty, Toronto, as well as from the following extract from the last announcement of the Faculty:

"It is a matter of congratulation, that this University enjoys such great and increasing favour throughout the country. The Medical Department shares this prosperity, which has been increasing every year, and this guarantee of public confidence is a matter which claims and receives a grateful acknowledgment.

The graduates, ever so remarkably welcomed wherever they settle, carry with them the fruits of their academic labour, and reflect back, as the reward of their untiring instruction, the grateful tidings of their well-earned reputation and extended usefulness. It is under such encouragement, realized in past years, that the public is assured of unabated zeal in the future fulfilment of its just expectations.

It is with the view of deserving and maintaining this high

position, that the Faculty of this Department have resolved to continue their usual Summer Session, and to do so upon an enlarged scale.

This is done under a conviction, that it will most materially promote the improvement of pupils at that time commencing their studies, as well as the improvement of more advanced students, who desire in a higher degree to mature their knowledge and avail themselves of practical opportunities of seeing disease.

Although students are not required by any statute, yet they are strongly recommended by the Faculty to attend the classes in Arts in Victoria College. Cobourg, by which course they will derive important advantages in the pursuit of their medical studies. Besides matriculating in classics, they would acquire a knowledge of Natural Philosophy, and by the study of Chemistry and Physiology they would pass one year out of the four required by the curriculum.

The Matriculation Examination (giving satisfactory evidence of the students' classical and general attainments) may be passed at any time before graduation; and the following works in the classics are recommended, out of which the pupil may choose the one in which to be examined, viz: The London Pharmacopæia, Gregory's Conspectus, Sallust's Catalina, or any other latin author.

He will also (before graduation) be required to compose a Thesis upon some medical subject, approved by the Faculty.

A pupil being 21 years of age, having pursued his medical studies for four years, and having attended Two full six months' winter courses can be admitted to an examination for graduation.

When a pupil seeks to graduate in THREE years (the period required by the GOVERNMENT MEDICAL BOARD), he must give satisfactory evidence of his preliminary fitness, and must

attend THREE full winter courses of Lectures (the third course being free).

When the pupil claims to have been two years in the pursuit of medical knowledge, he must satisfy the College, by a preliminary examination, that he has the presumed attainments.

Twelve months' attendance at some General Hospital, or advantages equivalent to it, will be required. The lying-in Hospital is open to pupils.

Anatomy is not only taught from the recent subject, but is also illustrated by various preparations, and by a full set of plates of the size of life, as well as by the best European models, which have been purchased for the purpose.

Besides the principles of Surgery, its practice is taught and illustrated by apparatus of various kinds, connected with its details, so as to familiarise the student with the most approved methods of adjustment and operation. With this are connected various specimens of surgical Pathology.

Medicine is taught in its principles and practice, as well by ample morbid illustrations of the effects and changes of disease, with the additional aid of the microscope.

Materia Medica is practically taught and illustrated by specimens; and the nature and effects of medicine and the modes of operation fully explained. Medical Jurisprudence, associated with this branch, puts the student in possession of that elementary information, which will at all times aid his research in the future, on trying occasions, and enable him to deliver his testimony in a court of justice in a satisfactory manner.

Midwifery is taught with the diseases of women and children, in the most practical manner, with the usual aid of a model, and illustrated by plates of the size of life, so as to familiarise the student with the highly important duties

Physiology will be taught by the aid of the microscope, and of a large collection of microscopic specimens, displaying the interior structure of the tissues and organs, as well as representing the physiological characters of the different fluids of the body.

The functions of digestion and of the nervous system will also be demonstrated by actual experiments on the lower animals.

Chemistry includes the principles of the science; and while inorganic chemistry is duly taught, the student is fully instructed in organic chemistry, and in chemistry as applicable to medicine and toxicology. The Lectures are fully illustrated by experiments, and by an ample laboratory.

The Museum is under the care and superintendence of the curator, and will contain not only illustrations of natural history, but whatever is deemed most conducive to the study of medical science in its various branches; for this purpose, large additions have been lately made and accommodation provided.

The demonstrator of Anatomy will give personal attendance in the Dissecting Room, to superintend and assist the students in their pursuit of practical Anatomy, from 9 o'clock, A.M., till 3 o'clock, P.M.

Pupils, having graduated at the University of Victoria College, have availed themselves of the Royal College of Surgeons, England, and received its diploma. And Dr. Norris, son of the Rev. J. Norris, of Markham, and a graduate in Medicine in the University of Victoria College, in the spring of 1860, has just returned from England, where he passed his examination, esteemed so critical, before the Royal

College of Physicians, and received the diploma of that Learned Body.

And Dr. Newcombe still more recently proceeded from Victoria College, and received the diploma of the Royal College of Surgeons, England, the examiners distinguishing him with the expression of their marked satisfaction."

Faculty of Baw.

DEGREE OF LL.B.

To obtain the degree of I.L.B. it is necessary to pass the Examination for Matriculation, and the four subsequent annual examinations prescribed below.

A Graduate in the Faculty of Arts in the University of Victoria College may enter the Faculty of Law at the third year's examination.

A Student of three years' standing in Arts may enter the Faculty of Law at the examination of the second year.

Any person who has been admitted a Barrister by the Law Society of Upper Canada may enter the Faculty of Law at the examination of the first year.

FEES.

For Matriculation, - - - Five dollars.

For the degree of LL.B., - - Ten dollars.

EXAMINATIONS.

The examinations for Matriculation will take place on the last Wednesday of September; the other examinations at the same time as the examinations in the Faculty of Arts.

Students intending to present themselves for examination must give one month's notice to the President of the University.

SUBJECTS OF EXAMINATION.

MATRICULATION.

Anabasis B. I., Homer B. I., Horace Odes Bb. I. and III., Virgil B. I.
Arithmetic.

| Algebra, as far as quadratic equationsLoomis. |
|--|
| Geometry, first six booksLegendre. |
| English Grammar. |
| English Composition and RhetoricQuackenbos. |
| Outlines of English History to the present time. |
| Outlines of Grecian History to the death of Alexander. |
| Outlines of Roman History to the death of Augustus. |
| Geography, Ancient and Modern. |
| French Language |

FIRST YEAR.

SECOND YEAR.

- 1. Hallam's Constitutional History.
- 2. Smith's Wealth of Nations.
- 3. Powell on Evidence.
- 4. Drewry's Equity Pleading.
- 5. Stephens' Pleading.
- 6. Blackstone's Commentaries, vol. 3.
- 7. Smith on Contracts.

THIRD YEAR.

- 1. Smith's Mercantile Law.
- 2. Byles on Bills.

- 3. Watkins on Conveyancing.
- 4. Williams on Real Property.
- 5. Story's Equity Jurisprudence, vol. 1.
- 6. Justinian's Institutes.
- 7. Statutes relating to Real Property and Commercial Law.

FOURTH YEAR.

- 1. Bentham's Theory of Legislation.
- 2. Story's Equity Jurisprudence, vol. 2.
- 3. Taylor on Evidence.
- 4. Addison on Contracts.
- 5. Russell on Crimes.
- 6. Blackstone's Commentaries, vol. 4.
- 7. Canadian Statutes relating to the Administration of Justice and Criminal Law.

Preparatory Department.

This Department sustains to the University the relation of a Grammar School, and is designed to qualify pupils for the University Course, or to give them a thorough elementary training in the following subjects, namely:—Arithmetic, Geography, History, English Grammar, Book-keeping, Algebra, Natural Philosophy, and the French, Latin and Greek Languages.

Those presenting themselves for admission into this department must be 13 years of age, and able to pass an examination in reading, spelling, outlines of Geography, and Arithmetic as far as fractions.

The charges for board and tuition are the same as in the higher classes of the College. The terms and vacations are also the same.
